Tube-lining is a method of decorating glazed tiles developed in Victorian England. It requires a high degree of skill, as the outline of each design is piped by hand on to each individual tile. Different glazes are then applied – again by hand – to the separate areas of the design to create miniature works of art with exceptionally rich and vibrant colours.

Approximate Dimensions:
 4-tile panel: approx. 410 x 410mm (16" x 16")
 – varies with grout width
 Borders: 200 x 75mm (8" x 3")
 Inset Tiles: 100mm x 100mm (4" x 4")
